**Curious about how
our environmentally-
friendly cleaning
products have been
received?**

"In our experience, **Naval
Kleen II** has proven to be a
highly effective product for
mitigating oil contamination of
ballast tanks."

Jeff Phelps
Vessel Manager,
Maersk Line Ltd.

On Spillaway and Fleet Kleen:

"One of the best advantages
aside from its ability to clean the
deepest crevices and cracks on
any surface is the added benefit
of cost savings and time."

Greg Cox
PSA & Environmental
Coordinator for Delta Airlines

Greetings!

First, let me say our hearts go out to all the people affected by the Boston Marathon bombings. Our thoughts and prayers are with you.

We're springing forward and the weather's getting better, right? Well, depending on where you are, it can take a while!

In this issue, you can read an excellent "green" article about shipyards and marinas and take a peek at a piece that was included about Environmental Solution.

We're also excited to announce a brand new product; FleetKleen Rigwash, specifically formulated for the offshore drilling industry. See below for more information.

As always, stay safe and keep going green!

John

Green Terminals

Environmental Solution, Inc. was included in the April 2013 issue of *Pacific Maritime Magazine*. When you read our section, you'll see how going green is actually a lot more economical than you think.

Enjoy the article!

Green Terminals

Federal, state and local regulations call for better management of possible pollutants and invasive species, while at the same time shipping lines are calling for

[Join Our Mailing List!](#)

green alternatives both for themselves and to pass along in marketing efforts to their own clients. This makes port authorities operating marine terminals along the West Coast very interested in green operations.

[Read the entire article as it appears in *Pacific Maritime Magazine* here.](#)

Feel free to leave comments or ask questions on our blog. We'd love to hear from you!

Featured Product: ***NEW* FleetKleen Rigwash Offshore Cleaner and Degreaser**

The only bioremediation product with the Gold standard from CEFAS, the U.K.'s Dept of Energy and Climate Change's North Sea Offshore Drilling Consortium.

FleetKleenRigWash™ has been specially designed to act as a multi-purpose cleaner and degreaser for the offshore oil and gas environment.

It is a highly concentrated, non-aggressive cleaner that can be used for cleaning all surfaces, including:

- all metals
- rubber
- plastics
- acrylic
- chrome and plated finishes and
- painted surfaces

without fear of

- warping
- etching
- weakening
- corroding

About Environmental Solution, Inc.

We care as much about the environment as you do.

That's why we're committed to helping companies in the marine, industrial, food manufacturing, transportation and aircraft industries enhance their environmentally-conscious green strategies with our superior bioremediation cleaning supplies that have a wide array of cost-effective and time-saving applications.

We are also a manufacturer's representative for our product line. Our primary goal is to build a network of successful distributors, both nationally and internationally for our product line.

If you want to keep your people safe and your working environment as clean and green as possible while saving time and money, please contact:
